Handwritten signature in blue ink.

THINGS TO OBSERVE.

Articles in this list will be sold at prices named as follows: 5 at the 10 rate; 50 at the 100 rate; 500 or more at the 1000 rate.

Prices subject to change without notice. Cost of packing material added.

All orders should be sent in as early as possible.

Terms cash before delivery or satisfactory reference.

All claims for errors and deductions must be made within ten days after receipt of goods.

Our nursery stock is strictly first-class in every particular and free from disease and insect pests.

We warrant all trees and plants to be good and thrifty, but for the reason that we have no control over the planting, pruning and care of the trees and plants after they leave our hands, we will under no circumstances replace anything that may die.

In growing and furnishing all nursery stock we use the greatest care to have it true-to-name, and will replace any that may prove untrue. But for any error we shall not be liable for any more than the purchase price.

INSTRUCTION

As soon as the trees and plants are taken from the Nursery, see that the roots are not exposed to the sun and heel them in as quickly as possible and settle with water till ready to plant.

When planting fruit trees, prune the trees about eighteen inches from the ground. (There are some exceptions.) See that the hole is large enough to admit the roots in natural condition. The trees should stand a little deeper than they did in the Nursery row. All broken or bruised roots should be cut off with a sharp knife, and settle the dirt around the roots with a liberal application of water.

And owing to the heat in this valley it is advisable to give the trunk some protection from the sun the first year.

In the price list it has not been possible for us to list our full line of nursery stock. In a general way we can furnish almost anything in the nursery line.

DISTANCE OF PLANTING

Standard Apples and Apricots should be planted from 24 to 30 feet apart. Standard Pears and Strong Growing Cherries, Standard Plums and Prunes, Peaches and Nectarines, 20 to 25 feet. Walnuts, 50 to 60 feet, and Grapes 7 to 10 feet apart.

The table below gives the number of trees to plant to the acre and the distance.

Distance	4	feet	apart	each	way	Number Plants

PRICE LIST

Ekstein Nurseries

MODESTO, CALIF.

Fruit Department

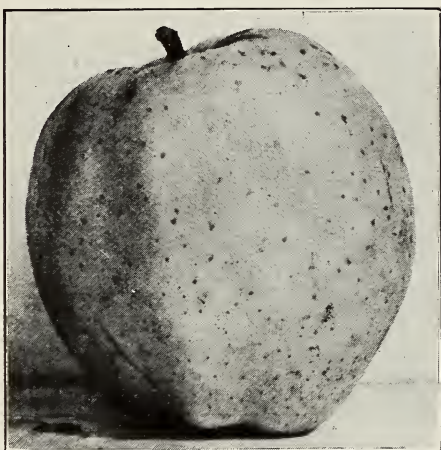

DECIDUOUS FRUITS

APPLES

Price of Apples—	Each	10	100	1000
1-year trees, 4 to 6 feet....	\$0.25	\$2.00	\$18.00	\$180.00
1-year trees, 3 to 4 feet....	.20	1.80	16.00	150.00

Early Harvest—Bright straw-color. Early July.

Red Astrachan—Large; deep crimson. A popular and productive early market variety, adapted to interior valleys. July.

Yellow Bellflower Apple

Red June—Deep red; very showy. June.

Gravenstein—Large; striped red and orange. Most popular early variety on coast. August.

Winter Banana—Fancy market fruit; large; pale yellow; pink blush. November.

White Winter Pearmain—Pale yellow. Adapts itself to all conditions. A favorite commercial variety in this state. November.

Winesap—Yellow streaked red; excellent for cider. November to February.

Yellow Bellflower—Large, oblong; yellow; a standard in California. October to January.

Yellow Newton Pippin—Large; golden yellow; extensively planted in California. A very promising commercial sort. January to May.

CRAB APPLES

Prices—	Each	10	100	1000
1-year, 4 to 6 feet.....	\$0.25	\$2.00	\$18.00	\$150.00
1-year, 3 to 4 feet.....	.20	1.80	16.00	120.00

Red Siberian—Yellow, with scarlet cheek. Bears early and abundantly. September.

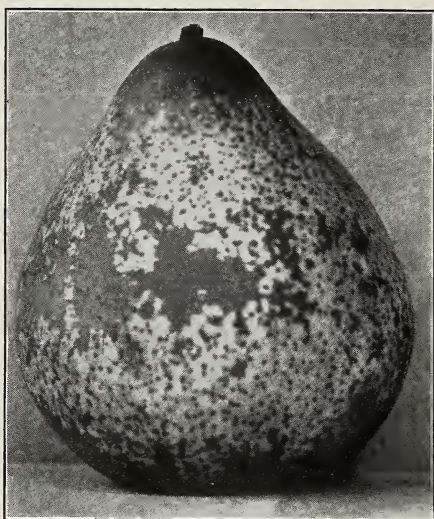

Transcendent—Fruit very large; yellow striped red. Immensely productive. September.

Yellow Siberian—Beautiful golden yellow. August.

PEARS

Prices of Pears—	Each	10	100	1000
1-year, 4 to 6 feet.....	\$0.30	\$2.50	\$22.50	\$180.00
1-year, 3 to 4 feet.....	.25	2.00	20.00	140.00

Bartlett—The leading commercial pear of California for canning, shipping and drying, and more extensively planted than any other. Large; golden yellow, red cheek; thrives in all parts of California. August.

Winter Nellis Pear

Seckel — Richest and most highly flavored variety; brownish green, with russet brown cheek; flesh whitish, buttery. August to September.

Winter Nellis—Medium; yellowish green, gray-russet dots; flesh yellowish white; excellent shipper. December.

PRUNES

Prices of Prunes on Peach—

	Each	10	100	1000
1-year, 4 to 6 feet.....	\$0.35	\$4.00	\$30.00	\$250.00
1-year, 3 to 4 feet.....	.30	3.00	25.00	200.00

French (Petite Prune d'Agen)—Medium size; purple; sweet and rich; standard for drying, and more extensively planted than any other. August.

Imperial — Very large; violet-purple; exceedingly sweet. Valuable market variety on account of size and quality. September.

Sugar—Dark purple; flesh yellow, tender and rich; valuable for shipping green. Early August.

PLUMS

Prices of Plums—

	Each	10	100
1-year, 4 to 6 feet.....	\$0.35	\$3.00	\$25.00
1-year, 3 to 4 feet.....	.30	2.50	20.00

Bavay's Green Gage (Reine Claude de Bavay)—Large; greenish yellow; juicy. August.

Burbank—Medium; globular; cherry red, with lilac bloom; flesh yellow; bears young. Late June.

Climax—Very large; deep, dark red; flesh yellow; delicious flavor. Tree vigorous and very productive. Middle of June.

Kelsey Japan—Rich yellow, overspread with red; flesh yellow; very firm. July to September.

Satsuma (Blood Plum)—Large; dark red from skin to pit; firm; juicy. Early July.

Formosa (Japanese)—One of Burbank's recent introductions. Ripening just in advance of Climax. Last half of Formosa will be picked with first half of Climax. Fruit very large and heart shaped, averaging a little larger than Climax. Color brilliant red. Very handsome and showy. Flesh yellow, firm, fragrant and of delicious flavor. We have had this variety under observation for several seasons. We have planted heavily to them in our own orchards. They are productive and good shippers. An improvement over Climax and very valuable as the best early variety.

Climax Plum

Yellow Eggs—A showy market variety, and good for canning. Very large; oval; deep golden; juicy, but rather acid. July and August.

CHERRIES

Prices on Mazzard Stock—

	Each	10	100	1000
1-year, 4 to 6 feet.....	\$0.35	\$3.00	\$25.00	\$200.00
1-year, 3 to 4 feet.....	.30	2.50	20.00	180.00

Bing—One of the grandest blacks. Its large size, firmness and delicious flavor have caused it to be in active demand. The tree is a thrifty grower and prolific bearer. Middle of June.

Black Tartarian — An old favorite. Deep, purplish black. Late May.

Early Richmond — Medium; dark red; juicy; very productive. Middle of May.

Black Tartarian Cherry

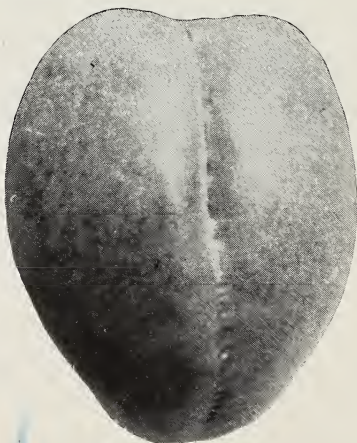

Napoleon Bigarreau (Royal Ann) — A magnificent cherry of largest size; pale yellow with bright red cheek; flesh firm, sweet; the most popular all-around cherry. Late June.

APRICOTS

Prices of Apricots on Apricot—

	Each	10	100	1000
1-year, 4 to 6 feet.....	\$0.30	\$2.50	\$22.50	\$200.00
1-year, 3 to 4 feet.....	.25	2.00	20.00	180.00

Blenheim (Shipley) — Above medium; deep yellow; juicy and rich flesh. In great demand both for canning and drying. Trees regular and heavy bearers. Middle of June.

Hemskirke Apricot

Hemskirke (Alameda Hemskirke) — Almost as large as Moorpark, but earlier and more prolific; flesh bright orange; tender. June.

Royal — The most extensively planted variety. Medium; flesh pale orange, with rich, vinous flavor. Early June.

Tilton — Orange-yellow, with pronounced flavor; valuable for canning and shipping. June.

PEACHES

Prices on Peach Stock—

	Each	10	10	100	1000
1-year, 4 to 6 feet.....	\$0.30	\$2.50	\$20.00	\$180.00	
1-year, 3 to 4 feet.....	.25	2.00	18.00	160.00	
1-year, 2 to 3 feet.....	.20	1.80	15.00	120.00	

(All varieties not designated as clingstones are free.)

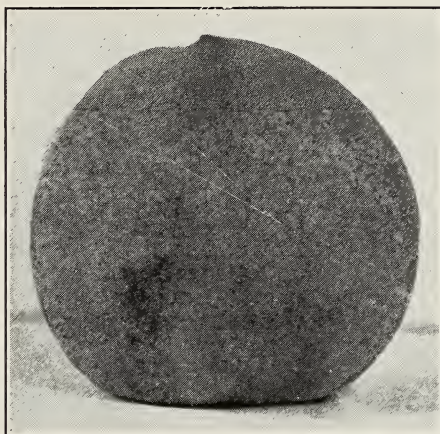

Alexander—Large; greenish white, shaded deep maroon; juicy and sweet. Early June.

Blood Cling—Medium; clouded purplish red; flesh deep red; esteemed for preserving. July.

Briggs Red May—Greenish white, with red cheek; flesh white. Middle of July.

Early Crawford—Very large; skin yellow, red cheek; flesh yellow. Middle July.

Elberta—Very showy and one of the best market and table varieties. Last of July.

Elberta Peach

Foster—Large; yellow, dark red cheek; fine for drying, market or canning. July.

Heath Cling—Very large; creamy white, with faint blush; flesh white. September.

Lovell—Leads all other clear yellow freestones; medium to large. One of the best drying and canning freestones. First week in August.

Muir—Very large; flesh clear yellow, very rich and sweet. The leading drying peach of California; good for canning. Last of July.

Phillips' Cling—Large; yellow; flesh firm, clear yellow. Always commands the highest market price for canning. Last August.

Runyon's Orange Cling—Very large; yellow, with a dark crimson cheek. Early August.

Salway—Large; flesh deep yellow, rich and sweet. Good for canning and drying. Middle of September.

Strawberry—Medium white, marbled dark red; flesh white, juicy, with rich flavor. Early July.

Tuscan Cling (Tuskena, Yellow Tuscan)—Very large; yellow. The best early canning peach. Middle of July.

NECTARINES

Prices on Peach Stock—	Each	10	100
1-year, 4 to 6 feet.....	\$0.30	\$2.50	\$25.00
1-year, 3 to 4 feet.....	.25	2.00	20.00

Boston—Large; bright yellow, with deep red cheek; flesh yellow, rich and luscious. A splendid variety for home use or market. Late July.

New White—Large; greenish white. Early July.

Stanwick—Very large; skin pale, shaded rich violet; flesh white, tender, juicy. The best all-round drying, shipping and canning sort. August.

FIGS

	Each	10	100
1-year, 4 to 5 feet.....	\$0.30	\$2.50	\$20.00
1-year, 3 to 4 feet.....	.25	2.00	18.00

Calimyrna

White Adriatic

California Black

Capri

OLIVES

	Each	10	100
1-year, 3 to 4 feet.....	\$0.70	\$6.50	\$50.00

Manzanillo—One of the standard for green and ripe pickles. Produces oil of a very high grade. Very hardy, and a regular and prolific bearer. First week in October.

Mission—Tree a handsome, upright grower, and fine for avenues. Medium to large; excellent for pickles, as well as a superior oil. Late October.

QUINCES

Prices on Quince Stock—	Each	10	100
1-year, 4 to 6 feet.....	\$0.35	\$3.00	\$25.00
1-year, 3 to 4 feet.....	.30	2.50	20.00

Apple or Orange—Large; fine golden color; valuable for preserves or flavoring. September.

Rea's Mammoth—Large, bright yellow; a strong grower, and very productive. October.

NEW QUINCES

Prices on Quince Stock—	Each	10	100
1-year, 4 to 6 feet.....	\$0.50	\$4.00	\$35.00

Pineapple—Originated by Luther Burbank. Flavor is suggestive of the pineapple. Makes a superior jelly, can be eaten raw and will cook as tender in five minutes as the best cooking apple.

Smyrna—Introduced from Smyrna. Very large and of a lively lemon-yellow; when cooked it is very tender, with a pronounced quince taste and odor. October.

TROPICAL FRUITS

POMEGRANATES

	Each	10	100
4 to 5 feet.....	\$0.60	\$5.00	\$40.00
3 to 4 feet.....	.50	4.00	30.00

Paper Shell—Very large; skin thin; pale yellow, with crimson cheek.

Sweet-Fruited—Fruit large, with sweet, juicy pulp; ripens in September.

Wonderful—The largest and most attractive of all. Valuable for shipment. Ripens early. Pulp a rich garnet color, with an abundance of juice, dark as port wine; exquisite flavor. October.

PERSIMMONS (Grafted Varieties)

	Each	10	100
3 to 4 feet.....	\$0.40	\$3.00	\$25.00

Hachiya—Very large; conical; bright red, with dark blotches; flesh deep yellow, soft and jelly-like when ripe. One of the best. September.

Tane-Nashi—Very large; bright red; flesh yellow; seedless. A good market variety of fine quality. Vigorous grower and heavy bearer. September.

LOQUATS

A beautiful evergreen shrub or tree attaining a height of fifteen feet, bearing pear-shaped fruits of a pleasant acidulous flavor and of lemon-yellow color.

	Each
2 to 3 feet.....	\$2.00

Giant and large fruiting; very large; deep lemon-yellow; flesh firm, juicy, sweet. One of the best.

AVOCADOS (Alligator Pear)

We carry the Northrup as it appears to be the hardest to date of the better varieties. Prices on application.

FEIJOAS

Fruit 2½ inches long by 2 inches across. Flesh thick, white, pulpy and watery with a sugary taste resembling the pineapple and guava, and with a strong agreeable odor. Every garden in California should have a few trees. It fruits from November to January and is hardy throughout the state.

CAROB TREE (Ceretonia siliqua)

The saccharine seed-pods are of value as food for horses, cattle and hogs. A fine tree for dry situations, doing exceptionally well in the interior valleys of this state. A fine avenue tree. Prices on application.

GUAVAS

Grows to be quite a large shrub; fruit pear-shaped, yellowish; valued for jellies and preserves.

	Each	10
Pot-grown, 2 to 3 feet.....	\$0.50	\$4.00

Strawberry Guava — Shrub or small tree, producing fruit of a fine deep claret color, with strawberry-like flavor.

CITRUS FRUITS

ORANGES

	Each	10	100
1-year buds, $\frac{1}{2}$ to $\frac{5}{8}$ caliper.....	\$1.50	\$12.50	\$100.00
1-year buds, $\frac{3}{8}$ to $\frac{1}{2}$ caliper.....	1.25	10.00	90.00

Ruby Blood—Medium; very smooth; pulp rich, juicy and melting. January to April.

Satsuma (Unshiu Oonshiu)—Deep yellow; flesh very tender, juicy. October to December.

Washington Navel—In California it has reached its highest stage of perfection, and stands in the lead of all other varieties for its large size, lusciousness and sweetness of pulp. The most extensively planted variety on the market. November to March.

LEMONS

	Each	10	100
1-year buds, $\frac{1}{2}$ to $\frac{5}{8}$ caliper.....	\$1.50	\$12.50	\$100.00
1-year buds, $\frac{3}{8}$ to $\frac{1}{2}$ caliper.....	1.25	10.00	90.00

Eureka—Medium size; sweet; smooth, glossy; abundant acid and very little rag. Very popular on account of its heavy summer crop, maturing when lemons are in greatest demand.

POMELOS

	Each	10	100
1- and 2-year buds, $\frac{5}{8}$ to $\frac{3}{4}$ caliper	\$1.50	\$13.00	\$125.00
1- and 2-year buds, $\frac{1}{2}$ to $\frac{5}{8}$ caliper	1.30	12.00	110.00

Marsh's Seedless—Medium; skin very smooth, glossy, lemon-yellow color; pulp juicy, with very little rag. The finest variety of pomelo. The fruit will hang on the trees till late in September.

NUT FRUITS

ALMONDS

Prices on Peach and Almond Stock—

	Each	10	100	1000
1-year, 4 to 6 feet.....	\$0.30	\$2.50	\$18.00	\$180.00
1-year, 3 to 4 feet.....	.25	2.00	15.00	150.00
1-year, 2 to 3 feet.....	.20	1.80	12.00	120.00

Drake's Seedling—Regular and abundant bearer; soft shell. Of the Languedoc class; bears abundantly where that variety is a total failure.

I. X. L.—Sturdy, upright grower; nut large; soft shell; bears heavily and regularly. Highly recommended by all orchardists.

Ne Plus Ultra—Large and very long; soft shell. A rapid grower and regular; heavy bearer.

Texas Prolific—Closely resembling Drake's Seedling. Kernel very plump and of medium size, shell soft, hulls very easily. Never fails to produce a good crop.

CHESTNUTS

Grafted Varieties, each.....\$1.00 to \$1.50
Come into bearing when three to four years old,
Nuts of superior quality; tree very ornamental.

PECANS

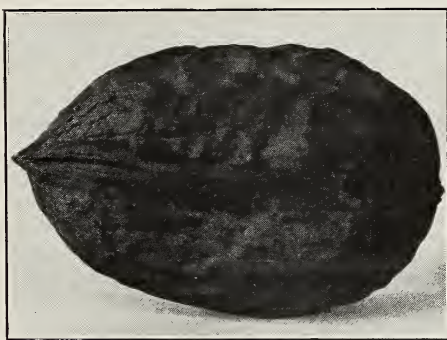

Grafted Varieties, each.....\$1.50

WALNUTS

Budded on Northern Black Walnut Root.
Pedigree stock.

Mayette — We consider this walnut the best of the Mayette variety we have ever seen, and think it will prove the best of any of the French walnuts for the interior region, owing to the fact that it is late in blooming and having resisting qualities to hot suns and blight. We have not seen a discolored kernel from the effects of the heat of last summer that made many of the other varieties unmarketable. Nut is oval in shape, rather tapering to a point at the base, the reverse of the popular Mayette; smooth shell, shallow creases, rather flat and broadened at the blossom end; exceptionally plump and extra white meats; of fine quality and medium size. A late bloomer and regular and moderately heavy bearer. It cannot be recommended too highly for extensive planting. Pedigree: a seedling from nuts of second generation from importations of Mayettes by Felix Gillet.

Budded on Northern California black walnut root.
Price, large size, each.....\$1.75
Prices on large quantities on application.

Franquette Walnut

Wilson's Wonder—This variety has a very large nut. We have seen some weighing 12 nuts to the pound. This variety is making a good showing in this valley. These trees come into bearing very early; very soon after planting into orchard. The nuts are well filled, the meat being mild and sweet. It is surely a wonder.

Budded on Northern California black walnut, each \$2.00. Prices for larger quantities given on application.

Franquette—A French varitey introduced into California by the late Felix Gillet. The qualities of this variety are well established, as it has been planted on a considerable scale both in Central and Northern California and Oregon. The nuts are medium to large, decidedly elongated and pointed, base much broader than apex. Surface medium smooth; color light yellowish brown. Meat very light colored and of sweet flavor. Growth fairly vigorous. Foliage abundant and thrifty.

Budded on Northern California black walnut.
Price, large size, each.....\$1.75
Prices for larger quantities given on application.

Prices on large quantities on application.	

We have a large stock on hand of Blue Gum, Manna Gum, Red Gum and Rudis, in flats.

E. viminalis. "Manna Gum." The most rapid growing of the eucalyptus in this country. Its wood is light in color and is excellent for interior finishing, etc. Grows very straight in groves. There are some fine, large specimens of this tree in the San Joaquin Valley.

E. rudis — An excellent avenue tree, of very rapid growth, and withstands both heat and cold. Wood is hard and close-grained. Has been grown extensively around Modesto, and its entire suitability to thrive in the San Joaquin Valley and similar places is well established.
